- Rated, BV Distinguished, Martindale-Hubbell

Experience

International manufacturer facility in central Ohio

Retained by an Italian-based company to provide all legal services in the construction and development of a 1.4 million-square-foot manufacturing facility in central Ohio. One of the main aspects of the site selection involved the environmental conditions of the site and environmental permitting issues in the project’s development. In this engagement, the firm assisted with various real estate, environmental and tax matters, including the negotiation of a variety of easements. The PUCO has approved energy efficiency rebates for the company’s combined heat and power systems which will result in significant cost savings and operational benefits.

Partner

\$29 million construction financing of mixed-use development

Represented a lender in connection with \$29 million construction financing of 132 apartments plus 6,587 square feet of retail and office space, including 253 parking spaces with structured parking in the new building. The debt transaction was syndicated and included mezzanine financing and a ground lease.

\$51 million mixed-use development financing

Represented a lender in connection with a \$51 million loan involving a credit facility for the acquisition of a pool of retail properties located in Ohio and Indiana.

Mixed-use project financing

Represented a lender in connection with a \$40 million secured revolving line of credit together with a \$10 million accordion feature (non-committed) for a real estate investment company.

National hotel financing

Represented a national bank in connection with \$27+ million financing of a national hotel.

Retail shopping center redevelopment

Represented a national bank in connection with \$17.5+ million refinancing of existing debt and financing for the redevelopment of a retail shopping center.

Outparcel portfolio financing

Represented a national bank in connection with \$25+ million financing of a portfolio of outparcels.

\$860 million Oregon Clean Energy Center

Successfully assisted Oregon Clean Energy LLC in the acquisition of a certificate from the Ohio Power Siting Board in May 2013 to begin construction on the 799-megawatt Oregon Clean Energy Center, a natural gas-fired combined-cycle generating facility located in Oregon, Ohio. Our firm continues to provide significant tax, real estate and construction counsel on the project. Additionally, we are representing the project before the OPSB to amend its certificate to reflect changes in facility design.

Multifamily project financing

Represented a national bank in connection with \$30+ million financing of a multifamily project.

Partner

Revolving line of credit loan

Represented a national bank in connection with \$50 million revolving line of credit loan for new development, acquisition, redevelopment and working capital purposes.

Retail shopping center financing

Represented a national bank in connection with the \$17.9 million financing of a retail shopping center.

Retail shopping center redevelopment

Represented a national bank in connection with the \$15 million refinancing of existing debt for the redevelopment of a retail shopping center.

Electric generation plant

Assisted in closing in excess of \$500 million of debt and equity financing for the construction of an Ohio-based 800 MW electric generation plant on behalf of an energy company. This transaction involved dozens of parties including lenders, equity investors, land sellers, railroads, gas pipeline companies, governmental entities, a title insurer and others.
